

Module Overview

Our PROVYS Production module can greatly streamline your production process from **end-to-end**.

Production planning covers:

- > content ideas
- > projects and budgeting
- > activity scheduling and capacity dispatching
- > intuitive easy-to-use visual planner
- > production project evaluation
- > line booking (live transmission management)

Resource management covers:

- > human and technical resource management (type independent)
- > shift management
- > resource usage and timesheet reporting
- > production and rental contracts
- > warehouse and ticketing

PROVYS is designed for media companies with a demand for process-oriented solutions. It is a complete fully customisable tool for companies of all sizes, from the smallest to the largest. PROVYS's structure, information sharing and flow principles greatly enhance your processes.

It provides a production **capacity planning** tool and **resource allocation** including all functions necessary to prepare a detailed **production plan** with complete capacity utilisation information. Control your finances such as production costs from an **initial budget**, through commitments all the way down to a **postproduction evaluation** and **reporting**.

To support you, PROVYS offers seamless integration with various post production and ERP systems.

About Us

We build and maintain **software products and services**, and support our partners and clients in broadcasting and non-linear media. We create long-term relationships with our clients, business partners and professionals. We deem the relationships with our clients to be of the highest value as our mission is to provide **"Efficiency with a human face"**, through predictability, professionalism, and open communication.

We are a highly motivated team of professional **software developers**, consultants and technicians dedicated to improving broadcast operations. Our specialists provide PROVYS products and expertise based on **many years of experience** working on projects to meet customer requirements. We also offer consultancy services to optimize your workflow processes during the analytical stage of the project.

"Unlimited capacity planning for painless execution."

Erinc Ilktan
Project Manager, PROVYS

We always say PROVYS is an **All-in-One Solution**. It is one system working in one database that can cover all your needs when managing your TV channels. But it is a modular solution. Every **customer is unique** and we prefer to deploy a solution that corresponds to your current needs. That is the main reason we introduce **six modules** that are present in the PROVYS All-In-One Solution.
